

## Halaman Vocher

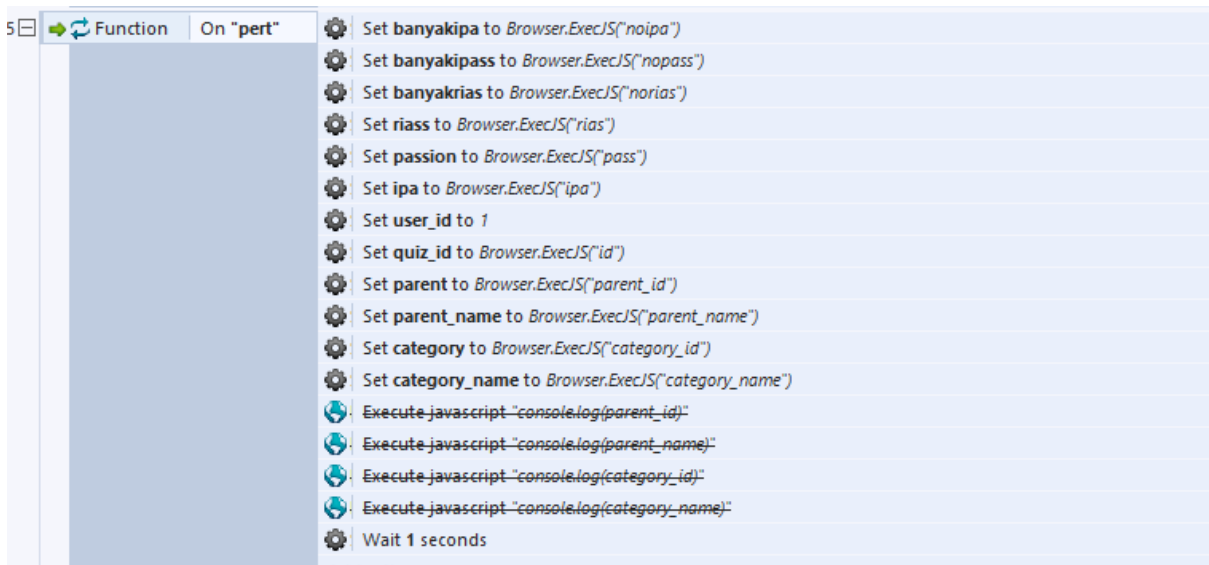

Setting proyek, ngambil data local kalo ada

Cek validasi voucher, kalo valid lanjut ambil pertanyaan sesuai voucher id

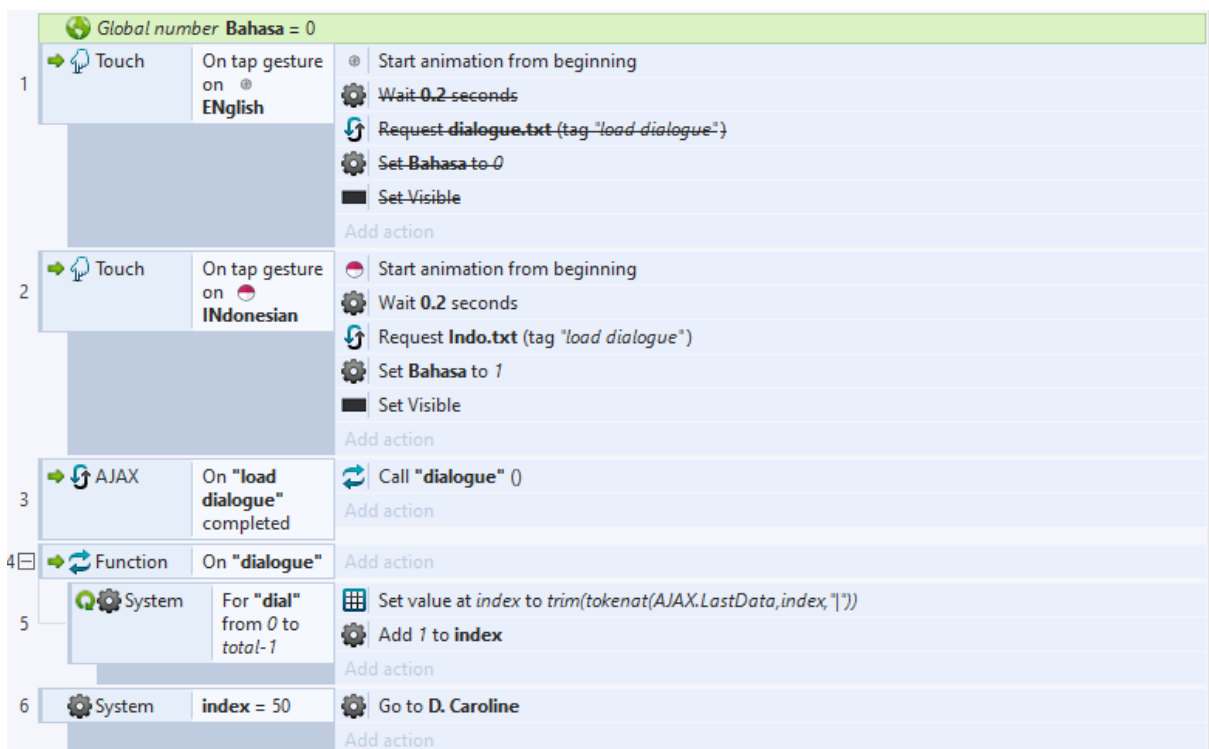

Abis minta validasi, parsing isiny sesuai kebutuhan

Parsing sama assign pertanyaan ke array nya masing-masing

## Halaman Bahasa

Pilih bahasa terus baca file sesuai sama bahasa yang dipilih, dialogue nya dimasukan ke array

### Halaman Caroline

17	System	index2 = 5	Set layer "example" Visible
			Add action
18	System	Else	Set layer "example" Invisible
			Add action
19	System	index2 = 7	Set lanjut to 1
			Add action
20	System	index2 = 17	Set lanjut to 1
			Add action
21	System	index2 = 13	Set lanjut to 2
			Add action
22	System	index2 ≥ 3	Set Visible
			Add action
23	System	Else	Set Invisible
			Add action
24	System	index2 = 13	Set Invisible
			Add action
			Add event

Kalo banyak dialogue berubah sesuaikan lagi index2 nya, ganti banyak index2 sesuai dengan dialogue ke berapa apa yang terjadi

### Halaman example

3	Tutorial		
4	System	index2 = 9	Set layer "example4" Invisible
			Set layer "example2" Invisible
			Set layer "example3" Invisible
			Set layer "example1" Visible
			Add action
5	System	index2 = 10	Set layer "example4" Invisible
			Set layer "example1" Invisible
			Set layer "example3" Invisible
			Set layer "example2" Visible
			Add action
5	System	index2 = 11	Set layer "example4" Invisible
			Set layer "example1" Invisible
			Set layer "example2" Invisible
			Set layer "example3" Visible
			Add action
7	System	index2 = 12	Set layer "example4" Visible
			Set layer "example1" Invisible
			Set layer "example2" Invisible
			Set layer "example3" Invisible
			Set lanjut to 1
			Add action

Kalo banyak dialogue berubah index2 juga berubah, misal index2=9 berarti pas dialogue ke 9
